Sir/Madam:

COMMUNICATION TO CORRECT NOVEMBER 15, 2007 FILING RECEIPT &
PAYMENT OF LARGE ENTITY FEES

Applicants hereby file this Communication to Correct the November 15, 2007 Updated Filing Receipt which was issued by the United States Patent and Trademark Office. A copy of the November 15, 2007 Updated Filing Receipt is attached hereto as **Exhibit A** (3 pages). The Marked-up Filing Receipt is attached hereto as **Exhibit B** (3 pages). There is no deadline for filing this Communication, so this Communication is being timely filed.

Applicants	: CHUI et al.	USSN	: 10/576,984
Art Unit	: 3612	Atty. Dkt. No.	: 1187-PCT-US
Examiner	: Lori Lynn Lyjak	Filed	: November 28, 2006

When the above-identified application was submitted on April 21, 2006, Applicants did not claim the small entity status. Therefore, Applicants submitted the application and paid large entity status fees. Attached hereto as **Exhibit C** (3 pages) is a copy of the Transmittal Letter as filed.

The March 6, 2007 Filing Receipt and the November 15, 2007 Updated Filing Receipt incorrectly indicates Small Entity status. Applicants request this corrected notation be made and an updated filing receipt be issued.

On November 22, 2006, Applicants submitted a communication to submit original declaration and power of attorney with payment of SIXTY-FIVE DOLLARS (\$65.00). The payment of ONE HUNDRED AND THIRTY DOLLARS (\$130.00) was due for large entity status. Accordingly, Applicants now have a balance of SIXTY-FIVE DOLLARS (\$65.00) due to the United States Patent and Trademark Office (USPTO).

Furthermore, on January 5, 2009 a petition for a two-month extension of time was filed with the USPTO with payment of \$245.00. However, a large entity payment of FOUR HUNDRED AND NINETY DOLLARS (\$490.00) should have been made. Accordingly, Applicants now have a balance of TWO HUNDRED AND FORTY-FIVE DOLLARS (\$245.00) due to the USPTO.

The total fee of THREE HUNDRED AND TEN DOLLARS (\$310.00) is deemed necessary in connection with the filing of this Communication. Applicants hereby authorize the Commissioner to charge the amount of THREE HUNDRED AND TEN DOLLARS (\$310.00) to Deposit Account No. 50-1891. However, if any additional fee is required, authorization is hereby given to charge the amount of any such fee to Deposit Account No. 50-1891.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An International (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as

set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
